

Frozen Peanut Butter Dog Treats

You'll need:

- 🐾 240g plain yogurt
- 🐾 80g smooth natural peanut butter (Meridian Peanut Butter Smooth has no added sugar, salt or palm oil and no XYLITOL).
- 🐾 Small hard dog biscuits (optional)

Method:

- 🐾 Mix the yogurt and peanut butter
- 🐾 Spoon into ice cube tray or silicon mould.
- 🐾 Use the dog bones as ice lolly sticks if required.
- 🐾 Freeze for at least 2 hours.

Xylitol and Dogs

Xylitol is a sweetener that's gaining in popularity because of its suitability as a sugar substitute for people with diabetes. Unfortunately, while xylitol appears to be perfectly safe for people, it is extremely dangerous for dogs — even in small quantities.

Very few peanut butters contain this, but please check the label.

Unsure as to which peanut butter is best, make your own. Very easy recipe available on recipe page.
