

## Liver Cake

### You'll need:

- 🐾 450g Liver, any will do but chicken is the easiest to blend
- 🐾 450g Self Raising flour
- 🐾 2 eggs
- 🐾 Water or milk, about the same volume as eggs

### Method:

- 🐾 Preheat the oven to 350°F, 180°C, Gas 4.
- 🐾 Blend the liver to a smooth paste
- 🐾 Add the eggs and water or milk, blend to mix
- 🐾 Add this to the flour and mix well. The mixture will form a thick sticky goo.
- 🐾 Empty into a greased baking tray
- 🐾 Bake for 35 – 45 mins
- 🐾 Cool on a wire rack
- 🐾 Divide into finger sized, or smaller bite size chunks and freeze

### Storing:

This recipe makes treats that will last in a sealed air tight container in the refrigerator for 1 week and in the freezer for up to 6 months.  
A finger size chunk should last one dog a 1hour training session.

Allow at least 1 hour for this to defrost.

The liver can be substituted for fish if required
